

Student from LBCC wins BIG!

We are proud to announce that the recipient of this year's Morey Construction \$1,000.00 Design Scholarship is Eileen Jewell. Ben Morey and Juliana Edlund, Director of the Interior Design program at Long Beach City College, worked together to set up the scholarship fund to reward and encourage up and coming students in the program.

Eileen is a student at LBCC's Interior Design program. She was among several students who entered this year. Students are evaluated on their Design projects and communication skills through a written application, oral interview, and project review by a panel of judges composed of educators and professional designers, as well as Architect Cindy Goff.

Cindy

Eileen

Ben

Eileen's goals are to complete the Interior Design program at LBCC, and to then work in the residential design field. She is interested in computer aided design and helping people create the "home of their dreams."

We all at Morey Construction wish her the best in finishing her studies and look forward to welcoming her into our industry.
